

Dry Reef is a group dedicated to establishing a wave of high-energy, uplifting music. Their Indie Surf sound is founded upon rhythm-driven composition, powerfully lush guitar melodies, and heart-pounding, vibrant vocals. Offering an airy alternative, Dry Reef has competed successfully in indie, jam-band, and reggae markets. These mid 20's musicians are rapidly evolving from dreamers to decision-leaders in the industry.

Dry Reef's 2018 'Alright Revival EP' started the year with six genre defying songs followed by a 30+ show tour spanning the east coast. The EP received high praise being featured on Philadelphia's premiere radio station, Radio 104.5, as well multiple music publications. The group released their debut album, 'Daychange' in fall 2018, and was widely well received amongst publications including Top Shelf Music Mag and The HummingByrd.

The band has earned the title 'road warriors', covering ground across the country, from Austin, TX to Miami FL, Denver, CO to Portland, ME. Since 2018, the band has played over 150 shows spanning 70 cities. 2021 marked a big year for the band, playing shows with the likes of G. Love and Little Stranger and completing an extensive east coast tour. Dry Reef also released their EP "Be Home Soon" in late 2021. With new music and performances on the horizon, the band is gearing up for a momentous new year.
